HARRY D. SAYLOR

Steward

JOHN R. HOLLINGER

Matron

MRS. ANNA S. RAYMOND

The regular meetings of the Board are held on the last Saturday of each month at 2.30 P.M.

The Faculty

GEORGE MORRIS PHILIPS, PH.D., LL.D.
Principal

ELVIRA Y. SPEAKMAN
Preceptress

FRANCIS H. GREEN, A.M., LITT.D.
English

C. E. EHINGER, M.D.
Director of Gymnasium; Physiology

CHARLOTTE N. HARDEE, Mus.B.
Music

ESTHER M. GROOME
Drawing

S. C. SCHMUCKER, A.M., PH.D.
Biological Sciences

CORA E. EVERETT, B.S.
Public Speaking and Reading
(On leave of absence 1914-15)

FOSTER H. STARKEY, A.M.
Vice-Principal; Latin

WALLACE P. DICK, A.M.
Greek and Latin

SMITH BURNHAM, A.M.
History

ADDISON L. JONES, A.M.
Principal Model School

ELLA AUGUSTA JOHNSON
French and German

J. FRANK NEWMAN, A.M., M.S.
Physics and Geology

C. HERBERT GREENWALD, B.S.
Chemistry and Physical Geography

ARTHUR D. CROMWELL
Agriculture and Botany

ANNE GOSHEN, A.M.
Psychology and Geography

AMBROSE L. SUHRIE, A.M., PH.D.
Pedagogy

ISABEL C. HALGRIM, B.S.

Domestic Science

KATHARINE C. DENWORTH, A.B.

Public Speaking and Reading

LYDIA H. MARTIN, M.E.

Mathematics

MRS. C. E. EHINGER

Physical Training

ANNA P. ESLER, M.E.

NORMA ALECK, A.B.

English

ELIZABETH F. CRILEY, M.E.

English Branches

HARRIET H. BALDWIN, M.E.

Pedagogy

ISADORE E. CROPSEY, Mus.B.

Piano

ELSIE O. BULL

Mathematics

JESSIE W. HARGIS, A.B.

German and Latin

GRACE D. MCCARTHY

English

T. FREDERICK WOODLEY

Mathematics

REGULAR NORMAL COURSE

To enter the first year of the course, students must have a fair knowledge of arithmetic, physiology, civil government, reading, spelling, writing, United States history, geography, grammar, and the elements of algebra to quadratics. Test by faculty.

First Year—Algebra, school management and school law, spelling, reading and public speaking, ancient and mediæval history, physical geography, arithmetic, English grammar, vocal music, physical training, manual training or domestic science and any one of Latin to Cæsar, French or German.

Second Year—Plane geometry, rhetoric, composition and English classics, botany, civil government, book-keeping, modern and English history, methods of teaching, drawing, physical training, and any one of Cæsar (four books), French or German.

Third Year—Psychology, English and American literature, United States history, zoölogy, geography, physiology and school sanitation, methods in history and geography, chemistry, physical training, and any two of Cicero (four orations), solid geometry and plane trigonometry, French, German, or astronomy and geology.

Fourth Year—Practice teaching, history of education, agriculture and nature study, arithmetic and methods of arithmetic, grammar and methods of grammar, public speaking, physics, drawing, manual training or domestic science, physical training, and any one of Virgil (six books), French, German, or any three of ethics, philosophy of education, sociology and surveying

CONDITIONS OF ADMISSION, GRADUATION, ETC.

1. Properly certified graduates of approved Pennsylvania high schools of the first grade and of city high schools, as listed by the Department of Public Instruction, may be admitted to the third year of the Four Years' Course of the State Normal Schools without examination, conditioned in the branches that have not been satisfactorily completed in their high schools.

2. Properly certified graduates of approved Pennsylvania high schools of the second grade may be admitted to the second year of the Four Years' Course of the State Normal Schools without examination, conditioned in the branches that have not been satisfactorily completed in their high schools.

3. Properly certified graduates of approved Pennsylvania high schools of the third grade may be admitted to the first year of the Four Years' Course of the State Normal Schools without examination, conditioned in the branches that have not been satisfactorily completed in their high schools.

4. The Faculty of any State Normal School may excuse graduates of approved high schools from taking or passing examinations in, any academic work satisfactorily done in their high schools, except in the review subjects of the third and fourth years.

5. A person who desires to be admitted to the second or third year without having previously attended an accredited high school, must have a certificate of a commissioned Superintendent of Schools, showing that he has pursued the branches of the first year or the first and second years, with his standing in those branches, or must pass a satisfactory examination by the Faculty in said branches, or be conditioned in them. But the studies in which any one is conditioned under this rule or any one of the rules above shall not foot up more than 320 weeks.

6. If the Faculty of any State Normal School or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board of Examiners, he shall not be admitted to the same examinations at any other State Normal School during the same school year.

7. If a person who has completed the examinations required for admission to the classes of any year at any State Normal School desires to enter another Normal School, the Principal at the school at which the examination was held shall send the proper certificate to the Principal of the school which the person desires to attend. Except for the reason here stated, no certificate setting forth the passing of any studies at a State Normal School shall be issued.

8. At the end of the third, and of the fourth, year of the course, students must pass examinations in them by the State Board of Examiners,* as well as by the faculty of the Normal School. There are no State examinations in the work of the first and second years, their work being finally passed in the faculty examinations or before entering the school as herein provided.

*The State Examinations are held early in June, the dates being fixed by the Superintendent of Public Instruction.

The Faculty of the Normal School gives (without cost) examinations in, or preliminary to, the course of study, on the first Saturday of each month of the school year, except in September and June.

9. Candidates for graduation shall have the opportunity of being examined in any higher branches, and all studies completed by them shall be named in their certificate. Persons who have been graduated may be examined at any State examination in any higher branches, and the Secretary of the Board of Examiners shall certify on the back of their diplomas as to the passing of the branches completed at said examination. No certificate or diploma valid for teaching except the one regularly issued by the State Board of Examiners to regular graduates shall be issued by any State Normal School or any person connected with any such school.

10. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the faculty and presented to the Board. Studies that have been completed at a high school shall be distinguished by the words "high school" or the initials "H. S." A separate list of each class shall be prepared for the use of each examiner together with a separate list of students conditioned in any branch, with the branches in which they are conditioned and the grades shall be indicated in every list where substitution is made or extra branches are taken. These lists shall be ready for the State Board before the examination begins.

11. No State examination shall be given to any student on part of a year's work unless the study is completed, but (except in the last year's examination) a student may be conditioned by the State Board of Examiners in not more than two subjects, covering not more than one period of work for a year. Accurate records of these conditions shall be promptly sent to the Superintendent of Public Instruction and the fact that the students thus conditioned have taken up such subjects and passed them by the faculty shall be certified to in writing to the State Board of Examiners before such students are admitted to another State examination.

12. Within fifteen days after the examination by the State Board of Examiners at any Normal School, the Principal of the school shall send to the Department of Public Instruction a complete list of all who have taken advanced branches, together with a list of these branches, also a list of those to whom diplomas and certificates were granted, and a list of those who passed the State Examination in any year, naming the year.

13. Graduates of State Normal Schools in the regular course, and graduates of colleges approved by the College and University Council, who shall satisfactorily pass the Faculty and State examinations in the course required therefor, shall receive the degree of Bachelor of Pedagogics. Bachelors of Pedagogics who have, after receiving such degrees, taught successfully for two years, and passed the Faculty and State examinations in the course required therefor, shall receive the degree of Master of Pedagogics.

14. Attendance for the last two years shall be required of all students, except in the case of graduates of Four Years' Courses in colleges approved by the College and University Council, who may be graduated after one year's residence; but,

15. Persons who have completed, without conditions, not less than one year's work in a college approved by the College and University Council of Pennsylvania, or by the Superintendent of Public Instruction under its authority, may, with the consent of the Superintendent of Public Instruction, be admitted to the senior class of a State Normal

School, conditioned in any subjects in which they are not satisfactorily certificated by their college or high schools.

16. When the school department of any state has graded its high schools, the Superintendent of Public Instruction of Pennsylvania may permit the State Normal Schools to admit the graduates of the high schools of such states upon the same conditions as the graduates of the Pennsylvania high schools are admitted thereto, provided, that the high schools from which they graduated have courses no shorter than those of the Pennsylvania high schools entitled to certificate graduates to the same standing.

17. Secondary schools other than public high schools, which have been rated by the high school inspectors or by the Examiners of the Bureau of Professional Education, may, so far as the admission of their graduates to the State Normal Schools is concerned, be put on the same footing as high schools of the first, second or third grade, by the Superintendent of Public Instruction.

18. The Principal of any Pennsylvania State Normal School, with the consent of the Superintendent of Public Instruction, may admit a person from a State Normal School of another state to corresponding standing in a Pennsylvania State Normal School, up to the beginning of the fourth year, subject to conditions in any subject in which they are not satisfactorily certificated by his Normal or high school.

CERTIFICATES AND DIPLOMAS

A graduate receives a certificate in which are named the branches he has studied, which entitles him to teach in the public schools of Pennsylvania for any two subsequent years without further examination.

Graduates who have taught for *two annual terms*, in the Public Schools of the State, and who have presented to the Faculty and Board of Examiners certificates of good moral character and skill in the art of Teaching from the Board or Boards of Directors in whose employ they have taught, countersigned by the proper Superintendents, may receive diplomas, which are permanent certificates of the highest grade. *They confer upon their holders the right to teach the branches named therein in the public schools of Pennsylvania without further examinations.*

COLLEGE WORK AT THE NORMAL SCHOOL

Professors of the *University of Pennsylvania* will come to the *West Chester State Normal School* each week and give regular college courses from the University's course of study. Students deemed by the faculty to be qualified, and to have time for them, may take such courses, and if they pass the examinations in them, will receive the same credit at the University towards the completion of the college course as if they had taken them at the University itself. Some of these college courses will be in addition to the Normal School course, others may be substituted for the same subjects at the Normal School. The University will charge a fee of ten dollars per year for each course which leads to one credit of a college course.

This arrangement makes it possible for many students of the *West Chester State Normal School* to complete a part of a college course at the *University of Pennsylvania*, without lengthening their Normal School course. It is believed that this is the only Normal School offering such an opportunity.

DEPARTMENTS OF STUDY

Professional Training

The aim of the Professional work is to prepare practical and efficient teachers by giving the students such special instruction and training as fits them to organize, to govern, and to teach a school both intelligently and sympathetically. Thorough scholarship in academic subjects is the first essential, but to-day professional training is believed by all competent judges of sound education to be just as necessary. The work of all the years is carefully unified in the class room, all the courses are kept in close touch with each other, and the methods are continually compared with the practices of the best schools.

First Year: School Law, School Management.

The Code of 1911 is carefully taught in all the particulars that affect the child, the school, or the teacher. In School Management the presentation emphasizes organization, discipline, moral training, habit formation. Knowing of the experience of successful teachers is the beginner's best preparation for profitable experience of his own.

Second Year: Methods of Teaching.

In this course the aims, purposes, processes of the recitation, and ways of teaching special branches or special topics, are thoroughly taught. The preparation of Lesson Plans is emphasized.

Third Year: Psychology, and Special Methods in History and Geography.

The first part of this course consists of an introspective and simple experimental study of sensation, perception, conception, imagination, memory, association, attention, judgment, and reasoning with especial application to school activities when practicable. The genetic point of view is especially emphasized in the study of the mental processes to the end that students may understand the developing mind of the child and thus come to know the significance of the law of appreciation in training such a mind.

The second part of this course is devoted to the study of the physical welfare of the child, with especial reference to defects of sight, hearing, motor ability, etc., as these bear on the progress of children in school. The adolescent is made a subject of careful study in this course. Practical application of the psychological principles learned during the year is made by students through observation of children at work in school. Special methods in History and Geography give the students a clear, definite and lively conception of the purpose of each of these studies, and familiarity with the best way to achieve these purposes with the children in school.

Fourth Year: History of Education, Special Methods, Practice Teaching, Electives.

(1) The course in History of Education emphasizes primarily the evolution of the modern elementary school. It aims to give the historical development of the principles which now obtain in the organization, management, and methods of representative elementary school systems.

Previous to Annual Millersville Baseball Game

(2) Special courses in the teaching of Arithmetic and Grammar are given in the senior year.

(3) Practice teaching is one of the distinctive features of the work of the senior year. The West Chester State Normal School is remarkably well equipped to offer the best facilities for observation and practice teaching. The model graded school is housed in a new school building, 114 by 62 feet, recently erected at a cost of \$42,000. This building is located on the campus of the Normal School, and is a most complete and suitable building for the purpose. It is used by the public schools of West Chester, and the Superintendent of the West Chester public school system is Principal of this graded model school. The members of the senior class observe and teach in the different grades of this school. They meet the principal collectively once each week for general instruction in methods and school management, and individually meet him daily for special instruction adapted to their individual needs while teaching. This experience in public schools of high reputation and efficiency is an excellent preparation for the practical side of teaching, and gives the graduates of this school an unusual advantage.

Arrangements have been recently completed whereby three model one-room rural schools within easy reach of West Chester are available for observation and practice teaching. These are all in charge of well trained experienced teachers. All members of the senior class who have not had experience in rural schools are required to do a part of their practice teaching in one or the other of these model rural schools. Hereafter all who definitely plan to teach in rural schools will be given extra opportunity for observation and practice in all three of these model rural schools.

(4) The elective professional subjects of the senior year are Philosophy of Education, Sociology, and Ethics. These subjects may be substituted for Latin, French, or German.

The course listed in Philosophy of Education is in reality a course in rural school problems of organization, management and method. It aims to emphasize: the recent changes in rural life conditions, and the changing functions of rural social institutions, especially the rural school; rural life needs and the rural school's readjustment of plant, equipment, and curriculum to meet these needs; the new types of supervision, organization and management; the sources of periodical and bulletin literature on general and specific phases of the movement for rural school betterment.

The course in Sociology is given with the view of enlarging the student's social outlook and social interests, and of acquainting him with the fundamental principles that underlie social activities so that those who take up problems of education may intelligently participate in those interests which inhere in the life of the community.

The course in Ethics is primarily adapted to the teaching of morals through the medium of the public schools. Little time is devoted to abstract ethical principles, but concrete problems associated in the minds of teachers with moral instruction are discussed and a course of study and methods of procedure are outlined for practical use in the elementary schools.

Supplementary or Post Graduate Courses are offered for the special benefit of non-resident graduates of the school who are engaged in teaching or other educational pursuits and have time for further professional study but are not in easy reach of schools of education or other institutions offering facilities for resident professional study. These post graduate courses lead to the degrees of Bachelor of Pedagogics and Master of Pedagogics. A full printed outline of the requirements for the completion of these courses will be mailed on request to the Principal.

The Model School

The Model School is housed in a new stone building, 114 by 62 feet, which has been recently erected at a cost of forty-two thousand dollars, and which is a most complete and suitable building for the purpose. Its large, well-lighted and well-equipped school rooms are supplemented by smaller rooms for practice teaching. It is heated and ventilated by the double fan system. This building is used by the Public Schools of West Chester and the Superintendent of the West Chester Schools is Principal of the Model School. The members of the Senior Class observe and teach in the different schools of this building. They meet the Principal of the Model School collectively once each week for general instruction in methods and school management, individually meet him daily for special instruction adapted to their needs. This experience in public schools of high reputation and efficiency is an excellent preparation for the practical side of teaching, and gives the graduates of the school an unusual advantage.

Language.

English Grammar:—Our teachers aim to make the work in grammar distinctly practical. While they present the technical side of the subject and emphasize the importance of a thorough understanding of the inflections and relations of the various parts of speech, their main purpose is to train the student in the use of his mother tongue by having him use it. Carefully criticised oral and written work is conducted and personal interviews with the students are held in order to point out their mistakes and lead to a remedy. The new course continues the study of grammar in the Senior year where, aside from a general review there taken, an opportunity is given for the presentation of pedagogical suggestions to the person about to teach. To our students grammar is made not merely a science—knowledge systematized—but an *art*—knowledge applied.

Rhetoric:—The work in rhetoric embraces a careful study of style in its various phases and a continuation of the written exercises carried on in grammar. Effectiveness of speech is thus made to supplement fluency and accuracy. The preparation of more comprehensive theses is added to the writing of one-page themes, and more formal and extended orations take the place of brief speeches.

Literature:—The study of literature includes a general survey of English and American literature, a thorough discussion of plans for the consideration of an author's life and writings, and a careful, critical examination and appreciation of certain great classics. The aim is not merely to familiarize the student with dates and facts, figures and philology, but to guide him to the real essence of literature and lead him to get at the heart of the thought of the author and get that thought into his heart.

The requirements in English for admission to American colleges receive special attention.

Latin:—In the Junior year the aim is to master the declensions of nouns, pronouns and adjectives, the comparison of adjectives, the formation and comparison of adverbs, and the conjugation of regular and irregular verbs. Daily exercises in the translation from Latin into English and from English into Latin are required in such a way as to give the student an ordinary working vocabulary and understanding of the common rules of syntax. Four books of Cæsar's Commentaries are read. A critical study is made in view of thoroughly grounding the rules of syntax, special attention being given to subjunctives. Transla-

tion into the best English idiom is rigidly required. Translations at sight and hearing are practiced. A knowledge of the subject matter, such as the tracing of Cæsar's marches, the geography of Gaul, the Roman art of war, and the life of Cæsar are topics for supplementary reading. In the third year six of Cicero's orations are read, including the four against Cataline, the one on Archias, and the one on the Manilian Law. Attention is given to the logical outlines, to the style of Roman oratory and to Cicero's life and the times in which he lived. The first six books of Virgil's *Æneid* are also read. Attention is given to the general style, Epic poetry, poetic constructions, figures of speech, prosody, peculiarities in the forms, mythological references, and to Virgil's life and times.

German and French:—The instructors in this department have been educated abroad and have a careful and accurate knowledge of German and French. They have had large experience in teaching these languages. The students, during the first year, are carefully drilled in correct pronunciation and made familiar with the elements of the Grammar. Idiomatic expressions, proverbs, short poems and prose selections are memorized and frequently repeated, and a considerable amount of German and French is read. Conversation and free reproduction based on selections read are found to be useful in fixing the principles of the language, and the sight reading and dictation exercises are valuable aids in the same direction. German or French is freely used in the class room to enable pupils to acquire as much as possible during the year. This is followed by a more exhaustive study of the grammar, by much reading of standard literature and further practice in conversation, composition and drill in letter-writing. Sight reading and dictation exercises are continued throughout the course.

Reading and Public Speaking:—The Reading work in the first year aims to cultivate the power of thought and imagination as a basis for expression. Effort is made to train voice and body and to promote correct speech, that the pupil may be enabled to read intelligently. A certain amount of practice speaking in the auditorium is required in this year.

The course in public speaking is required of all seniors in the four-year course. It includes training in the fundamentals of public speaking with practice of speaking from an outline, as well as extempore speaking. This work is designed to give each pupil opportunity to speak before his fellows and to learn to think upon his feet in order to gain confidence in himself before an audience.

A special class provides further opportunity for practice in expression; it includes reading, recitation, and dramatic presentations. Public recitals are given from time to time which offer opportunity for public work. Special arrangements may be made for private lessons.

Spelling:—Spelling belongs in the first year of the course, but students who need it are put into spelling classes at any time. Constant drill in spelling and definition is given from a good spelling book. The work is usually written, and much attention is paid to a correct understanding of the words spelled, as shown by their use in sentences. The school believes in the importance of correct spelling, and that persistent drill will make good spellers.

Mathematics

The methods employed in teaching mathematics are based on the pedagogical law, that the nature of the subject to be taught conditions the method of teaching it. The nature of every subject in mathematics

is found in its fundamental concepts, its principles, and in their applications.

The fundamental principles are also developed inductively through solutions of characteristic problems, and are formulated and expressed in clear and concise language, and learned.

Accordingly, students preparing to teach are required to study thoroughly the science of each subject. In arithmetic and elementary algebra they are led inductively to a comprehension of the fundamental concepts and to an interpretation of the definitions of them.

In the light of these definitions and principles, problems are worked out, the solution being put in statements expressing each logical step involved. In order to accomplish the work in this thorough manner, students must have a preliminary knowledge of arithmetic through percentage and proportion and some of their applications; and in algebra through radicals and quadratic equations before they are allowed to enter the First Year class, their knowledge being tested by an entrance examination. In the First Year class these branches are thoroughly reviewed and studied in the light of the theory involved. Algebra is completed in the First Year, while arithmetic is again reviewed in the Senior year. After completing our course in these branches, we feel that we can recommend our students with confidence as teachers of them.

Students failing to pass the entrance examinations to the First Year are promoted into that class as soon as they are found qualified to enter it. Students are admitted to the Second Year classes in plane geometry without any previous knowledge of the subject. They are required in this branch of mathematics to learn and illustrate all definitions and axioms; to learn and thoroughly demonstrate all propositions and corollaries, giving full authority for every statement made; to solve all geometrical problems by accurate constructions, and to demonstrate and solve original theorems and problems.

Solid geometry and plane trigonometry and surveying are studied with equal thoroughness, and practical field work in surveying with a first-class surveyor's transit, with stadia attachment is done during the spring term.

Physical Science

Physics:—In Physics the topics regarded as of practical value to the greatest number are mechanics, including the mechanics of liquids and gases; heat as a motive power and in its application to atmospheric phenomena; and such portions of electricity as are necessary to an elementary knowledge of its more common practical applications. Individual laboratory work is required of all students.

Chemistry:—In Chemistry the work is largely experimental in character. Each day's lesson is, as far as possible, applied by the student in the laboratory, and embodies the result of his own observations and experimental work. As soon as the student is sufficiently advanced, his attention is turned to such portions of the subject as find practical application in the home, in the dairy, and on the farm.

Geology:—In Geology the student is expected to become familiar with the common minerals and rocks, and the changes undergone by rocks in weathering and in the processes of soil formation. Stress is placed upon the ability to recognize different rock formations, and the influence of such formations upon the general character of the country. He is also called upon to observe the action and effects of rain and streams in producing the present relief forms shown in our own neighborhood. In short, while an attempt is made to cover the ground and the text-book, such portions of the subject are given prominence as

furnish the best fields for investigation in our locality and serve best to stimulate observation and thought.

Biological Science

The work of the department of Biological Sciences begins in the second year in botany, is continued in the third year with physiology and zoölogy and culminates in the fourth year in nature study and agriculture.

Botany:—The emphasis in Botany is laid on the life activities of the plant and its relation to its surroundings. A rich and varied field is close at hand and a well equipped laboratory, together with an excellent lantern and abundant slides, assists to make practical the teaching in this subject.

Zoölogy:—The study of animals, both living and prepared, and frequent observations in the field, make this a vital subject. The underlying purpose of the work is to furnish the student with a clear conception of life in order that he may the better understand his own life. The department is provided with a good laboratory, and with an excellent lantern with equipment for projecting minute living animals as well as microscopic preparations and photographic slides. Abundant field material, close at hand, gives vitality to this subject.

Physiology:—The knowledge of life gained in botany and zoölogy here finds its immediate application in the better understanding of human life. Modern methods of safeguarding the health of school children receive careful attention. An Auzoux manikin, a skeleton and models and lantern slides assist most efficiently the work in this department.

Agriculture and Nature Study:—The information gained in the earlier study of the various sciences finds in these studies of the fourth year its pedagogical application.

The work in nature study undertakes to select the material and to bring its treatment within the grasp of the children of the lower grades. It serves to make the students at home in nature and to prepare them for the comprehension of the later scientific studies.

The work in agriculture treats of the underlying principles of plant and animal culture and improvement and of the simpler operations of farm, orchard and dairy. Practical work in gardening, visits to adjoining farm and dairy, and laboratory work in soil examination and seed testing helps the pupils to a practical understanding of the subject.

History and Civil Government

History of the United States:—A fair knowledge of the History of the United States is required for admission to the First Year of the Normal School course. A course in United States History and Methods of Teaching History is given in the Third Year. In this class special attention is given to the political and industrial development of the United States. Much topical work, designed to train students in the use of the more important secondary histories and illustrative source material, is assigned. This course also deals with the problem of teaching history in the common schools. The place of history in the course of study, its value, the use of stories in the lower grades, the proper use of a text-book and of other books, the use of illustrative material, and teaching children how to study the lesson are some of the topics treated.

General History:—A twenty-seven-weeks course given in the Second year embraces a rapid survey of the entire subject, in which the origin and growth of institutions are briefly traced and the meaning of the more important movements and epochs pointed out and emphasized.

English History:—A short course in English History is given in the Spring term of the Second year. The subject is presented with special reference to giving the student a better background for the study and teaching of the history of America.

Civil Government:—Some knowledge of this subject is required for admission to the First year. A preparatory class will be organized for those who need it. The regular course in Civil Government is given in the Third year. This course is founded upon Philip's Nation and State, which is supplemented with much additional practical information and application.

Geography

Political Geography is reviewed in the Third year of the course in connection with special work in methods of teaching this important subject. The subject is carefully taught as it is found in modern text-books, with abundant illustrations from maps and globes.

Physical Geography is taught in the First year as a part of the school work in physical science. It is illustrated from the great collection of geological, mineral and other specimens in the school's museum, and by field work and excursions to places of geographic interest in the vicinity. The neighborhood of West Chester is unusually rich in mineralogical and geographical interest.

The Arts

Drawing:—The aim of the course of instruction in this department is not only to teach the students Drawing, Form Study and Color, but also to furnish a means of mental development which shall lead to a knowledge and appreciation of the beautiful. The three general divisions of the work are: Representation, or the drawing of the appearance of objects; Decoration, or the producing of beauty in ornament; and Construction, which deals with the facts of form.

Writing:—The pupil is taught the most rapid, practical business styles possible. This work comprises a thorough study of the mechanics and pedagogy of Arm Movement Writing, lessons and lectures from the blackboard, recitations and essays or theses to determine the pupil's general education and technical knowledge of the subject.

Bookkeeping:—Bookkeeping is taught from a practical standpoint. The course requires a knowledge of double entry bookkeeping. The narrative exercises are for the most part short, and the transactions involved reflect actual business conditions, in which the student is taught the use of practically all of the standard business forms. The object of this course being not only to enable the student to teach the subject, but also to permanently fix in his mind the principles of accounts so that he may be able to put them into practice.

Physical Training

This department provides instruction and means for the betterments and preservation of health and harmonious development of the body. It prepares graduates to introduce free gymnastics into their schools and to exercise intelligent oversight of the physical needs of school children. These objects are accomplished by—

1. Regular class exercises in the gymnasium during the fall and winter and upon the field in the spring, and by periods for optional work after school hours, alternating with class days.

2. Physical measurements and strength tests of all students upon entrance, at the close of the school year, and at such intervals as seem necessary. This forms the basis of comparison of the student's condition and needs, and determines the character and amount of exercise necessary to overcome marked deficiencies, irregular development, or such deformities as are amenable to physical exercises.

3. Personal advice in reference to habits of life, exercise, study, and recreation; by lectures and class-room instruction pertaining to hygiene, the physiology of exercise, etc.

4. Instruction concerning the history, systems, methods and educational value of gymnastics, and its correlation with other branches.

5. Practice teaching of school-room gymnastics, instruction and practice of plays and games involving physical activity, and a consideration of the principles which lie at the bases of the universal play instincts.

All who graduate hereafter will be expected to be able to swim, except such as are necessarily excused from it. The School's swimming pool and physical instructors give every facility for this.

All students are required to take the prescribed light gymnastics, which are of such a character as to meet the average needs and not over-tax the strength of any student who is in a physical condition to undertake normal school work.

FOUNDATION, STATE OWNERSHIP, &c.

The West Chester State Normal School was founded in the year 1871 by the joint efforts of the Trustees and contributors of the West Chester Academy, and the citizens of West Chester and vicinity.

On December 30, 1913, all the property of the school was transferred to the State, as provided in the new School Code, and it is no longer owned and controlled by a private corporation, but is strictly a State Normal School, being the first Normal School in Pennsylvania to be thus transferred. It is managed by a board of nine trustees, who are appointed for three year terms by the State Board of Education.

LOCATION

West Chester is a beautiful town of 13,000 inhabitants, the county seat of Chester county, and is preëminent for its healthfulness, morality and intelligence. It is about twenty-five miles west of Philadelphia, with which it is connected by two lines of the Pennsylvania R. R. It is also connected with Philadelphia by a trolley line, over which cars run every half hour each way, starting from the 69th and Market streets terminal of the Market street subway and elevated railway. A short branch road connects West Chester with the main line of the Pennsylvania Railroad at Frazer, where connections are made with the trains on the main line; and by electric roads it is also connected with the Philadelphia & Reading R. R. at Lenape, and with the Pennsylvania R. R. at Coatesville, Downingtown and Kennett Square.

THE BUILDINGS

Are situated in the southern part of the borough, half a mile from the Court House. The main building is built of green-stone with white marble, 256 by 275 feet, four stories high, with basement.

The chapel and the dining-room are in the main building and are completely and handsomely fitted up. Each story has bath-rooms (hot and cold water), water-closets, slop-hoppers, &c., of the best pattern. The drainage is first-class. The whole building has lately been improved; the students' rooms have all been papered, refitted and refurnished and many other improvements made to add to the efficiency of the school and the comfort of the students.

Crossing the Line

Interior of Library

Two passenger elevators make all the floors equally desirable. An electric light plant supplies every part of the building with the best and safest lights.

THE GYMNASIUM.—There is a first-class gymnasium, 104 by 64 feet, with an administration building attached, 29 by 36 feet. It is of stone two stories high, fitted up with every modern improvement, including a full supply of the best apparatus, running track, bath rooms, large swimming pool, bowling alleys, &c. A thoroughly trained physician and his wife are in charge of the gymnasium, and all exercise is taken under their supervision. All students are given a complete physical examination, and proper exercises prescribed for them. This gymnasium marks a great and important advance in the Normal School work, and its advantages are enjoyed by all students without extra cost.

RECITATION HALL.—This is a stone building 185 by 80 feet, with two stories above a high basement, which is used wholly for school purposes. It has been planned with great care, and is unusually well adapted for its purpose. It is heated and ventilated by the fan system. The total cost of the building and heating plant has been over \$100,000.

LIBRARY.—A new library building has been built at a cost of \$60,000. It is 90 by 72 feet, will hold 50,000 books, and affords fine reading and reference rooms. In its second story are the school's museum, an art gallery, and the collection of the Chester County Historical Society. The library now contains more than 17,000 well selected volumes, including the libraries of the late Dr. William Darlington and of the Chester County Cabinet of Nature Sciences, the Evans Rogers collection of historical books, for which \$1,000 was given by the late Evans Rogers; the Horace Howard Furness collection of books on Shakespeare, the gift of Dr. Furness, and the collection of Chester county bibliography made by the late H. Rush Kervy. A modern card catalogue and a trained librarian add much to the value of the library. About a hundred leading magazines and papers come regularly to the library for the use of the school.

NEW BUILDINGS.—For years the school's large buildings were insufficient to accommodate the students applying for admission, and in 1910-11 three large new buildings were built. These are a **NEW DORMITORY**, of green stone, three stories high, to accommodate 175 boys, where all the boys room, but take their meals in the main dining room, a short distance away; an addition to the **DINING ROOM** and a new three-story annex, together with the rooms formerly used by the boys, will accommodate 225 more girls; a large new separate **HOUSEHOLD BUILDING**, with complete kitchen, bakery, store room, and other conveni-

ences. These buildings, with their equipment, cost more than \$150,000.

NEW GROUNDS.—The erection of so many buildings has so taken up the main campus that the Trustees have purchased adjacent grounds at various times, including the fine grounds of the Chester County Agricultural Society, until they now embrace forty-eight acres, including enclosed grounds suitably fitted up for all out-door games, and a large and safe skating pond.

INFIRMARY.—A complete and well-appointed school infirmary, at considerable distance from the other school buildings, has been erected. This has been planned by skillful physicians and architects, and will not only promote the comfort and recovery of any who may be ill, but will also tend to prevent the spread of contagion in the school. It is believed that this was the first school of its class to take this important step. A trained nurse is employed by the school, who gives her whole time to the care of the health of the school.

The school property has now cost about \$900,000, and is believed to be one of the best and most complete of any State Normal School in this country.

STUDENTS' ROOMS.

The rooms are generally arranged for two students each. All are good sized, and are thoroughly heated by direct steam radiation. The rooms are newly and comfortably furnished, have closets, single beds, wash stands, bowls and pitchers, and are furnished with woven wire mattresses. The ladies' rooms are all carpeted. The buildings and grounds are lighted by the school's own electric lighting plant.

ADMISSION, GOVERNMENT, ETC.

CONDITIONS OF ADMISSION.

Pupils will be allowed to enter the regular course at any point for which they are actually fitted, subject to the regulations before mentioned. They are urged, whenever possible, to graduate from high schools, or equivalent schools before entering the Normal School.

A prompt attendance at the commencement of the session is of the utmost importance, both to the progress of the pupil and proper organization of the school.

Students desiring to enter the institution should make application to the Principal at as early a date as possible. All new students must submit satisfactory testimonials of good character from their last teachers, and must have physicians' certificates of vaccination.

Pupils boarding in the institution will be furnished with beds and bedding, and are expected to furnish a pair of blankets, or an equivalent, towels, and table napkins. All students will need gymnasium shoes, which can be got in West Chester at small expense. The young ladies provide themselves with gymnasium suits of black serge, sailor blouse style, and it is highly desirable that all the young ladies should have this satisfactory and inexpensive dress. Many of the boys provide carpet for their rooms, thus giving them a very neat and home-like appearance.

Keys, wash-bowls and pitchers are furnished by the school, but their cost must be deposited when they are obtained, which deposit will be refunded when they are returned uninjured.

MORAL AND RELIGIOUS CULTURE.

All students are required to attend the opening exercises of the school Chapel each day, and all must attend religious services each Sabbath morning in the town, at the churches preferred by their parents or guardians. The Young Men's and Young Women's Christian Associations are large and efficient, and maintain regular non-sectarian religious meetings.

LITERARY SOCIETIES.

There are connected with the school two flourishing Literary Societies—The Moore Literary Society and the Aryan Society—composed of students and members of the Faculty.

The value of these Societies as adjuncts of education is so great that the student cannot afford to neglect the opportunities they afford for literary and oratorical culture.

MUSEUM.

The Museum contains a large and valuable collection of specimens illustrating every department of Natural Science. It was begun in the year 1826, and has been annually enriched with contributions from every portion of the world. The justly celebrated "Herbariums" of the late Dr. William Darlington, David Townsend, and Josiah Hoopes, now in the Museum, are conceded to be among the most accurate and extensive private collections ever formed in this country. The mineral collections of the late Alfred Sharples have been deposited by his son, F. F. Sharples. The J. Preston Thomas collection of heads and horns, a valuable zoölogical collection from all parts of the world, and of Indian relics, including thousands of arrow heads, axes, pipes, &c., were collected by the late J. Preston Thomas and given to the school by his family. A fine collection of birds, made by the late Frank Darlington, has recently been added to the museum.

TEXT BOOKS.

Text Books are sold to students at publishers' prices; but most of the books used in the course are furnished on rent to those preferring it.

MUSIC

This department, including vocal music and piano, is unexcelled outside of the large cities. The teachers in charge are fine musicians, and have had long and successful experience in their profession.

MUSIC RECITALS

Are held every few weeks in the Chapel for the purpose of giving the pupils ease and self-control in playing and singing before an audience. For these recitals a Steinway Concert Grand Piano is used.

A course of reading in musical literature is recommended to cultivate the style and enrich the pupil's knowledge of the great masters.

APPLICATIONS FOR TEACHERS

Frequent applications are made to the Principal for well-trained teachers, and it will be our aim to supply the demand as far as possible.

CALENDAR

The School year is divided into two sessions. The Fall and Winter Session will begin *Monday, September 6th*, and continue *twenty-seven weeks*. The Spring Session will begin *Monday, March 27th*, and continue *thirteen weeks*. There will be a vacation of one week at Christmas, and one of the same length between the sessions in March.

EXPENSES

	Full School Year 40 weeks	Fall & Winter Term only 27 weeks	Spring Term only 13 weeks	Part of a Term per w'k
<i>Boarding Students</i> :—Board, tuition, furnished room, light, heat, laundry (12 pieces per week), and enrollment fee.....	\$245.00	\$167.00	\$83.00	\$6.00
<i>Day Students</i> :—Tuition and Enrollment Fee.....	65.00	45.50	24.50	1.50
DEDUCTIONS :—				
<i>State Aid</i> for students 17 years or more of age and preparing to teach at least two years in Pennsylvania	60.00	40.50	19.50	1.50
<i>Absence</i> :—Boarding students absent or two or more consecutive weeks on account of personal sickness	4.50
<i>No deduction will be made for the first four weeks or for the last four weeks of the school year.</i>				
<i>Students who take Gymnasium only</i> ...	10.00	6.75	3.25	.25

When a student's place in the school building is held for him during his absence, and cannot be temporarily filled, a charge of \$1.00 per week is made.

Meal tickets for visitors may be got from the steward at 25c. each.

MUSICAL INSTRUCTION:—

Two lessons per week with two practice periods per day.....	50.00	34.00	16.00	1.30
Two lessons per week without practice	40.00	27.00	13.00	1.05
Use of piano two practice periods per day.....	10.00	7.00	3.00	.25

No deduction can be made for missed lessons unless the student is absent from school an account of personal sickness for two or more consecutive weeks.

For half the above number of lessons and practice the charge will be half as much.

All students except those who take only music or other special work will be charged once a year an enrollment fee of \$5, which must be paid before they enter school. No student will be enrolled for a room in or through the school until this fee has been paid. If notice of withdrawal is received a week or more before the opening of the term or the expected date of entrance, the enrollment fee will be refunded, and in the case of a boarding student, will be credited upon the bill for a full year's attendance, but will not be credited upon the bills of day students.

Except in case of a deficit in the State Aid appropriation, students at the different State Normal Schools will receive the same pro rata share of the appropriation. The full amount has been received for many years.

Except in case of a deficit, the State Aid pays the tuition of all students who are over seventeen years of age who declare their intention to teach at least two full terms in the public schools of the State, and who constantly receive regular instruction in the science or art of teaching in a special class for that purpose.

\$83.50 must be paid at the beginning of the Fall and Winter Term. The balance of the bill for the Fall and Winter Term, after deducting the State Aid for the term, is due at the middle of the term. The bill for the Spring Term must be paid at the beginning of that term.

The Principal or his representative, acts for the Trustees and receipts all bills.

Bills may be paid by cash, check, or post office money order.

There is no extra charge for vocal music, elocution, book-keeping, drawing or other subjects taken in the regular classes, and none of any kind, except for private music lessons, books, stationery, sheet music, damage and material used in the Laboratories, Manual Training and Domestic Science.

Bills for one term must be settled before students will be permitted to enter upon the next term, unless by special arrangement.

Diplomas will not be issued to those whose bills are unpaid.

ALUMNI FUND

A loan fund has been established by the Alumni, which now amounts to about \$3,000. This is loaned, without interest, to worthy students preparing to teach, preferably to those already in attendance and who are in the advanced classes.

VISITORS AND VISITING

Calls on pupils during the hours of recitation or study seriously interferes with the object they have in view, and therefore will not be allowed, except in case of necessity. Prolonged visits are not expected, as they interfere with the student's work, as well as with the school's household arrangements.

Every absence from school duty is a loss which cannot be wholly made up. *Parents are earnestly requested not to take their children away from a single school duty, unless it is absolutely necessary. It will interfere with important school duties if a student leaves earlier than Saturday morning or returns later than Sunday evening.* Students are not permitted to visit home or away from town without special permission from their parents or guardians.

Relatives and friends are requested to call for students by telephone only in cases of necessity, on account of the difficulty in getting messages to them quickly.

Express charges on packages sent to students should always be prepaid.

THE TEXT BOOKS USED

Readers—Hyde; *Arithmetic*—Silver-Bnrddett; *Geography*—Dodge, Dyer; *Grammar*—J. P. Welsh, Milne; *Geometry*—Hart and Feldman; *Algebra*—Sensenig; *Physiology*—Davison; *Physics*—Millikan and Gale; *Botany*—Bergen and Caldwell; *Chemistry*—Smith; *Zoology*—Jordan; Kellogg and Heath; *Geology*—Blackwelder and Barrow; *Rhetoric*—Merkley; *History, U. S.*—Mace, McLaughlin; *Civil Government*—Philips; *Drawing*—Prang; *Vocal Music*—Harmonica; *School Management*—Dutton; *Methods of Teaching*—Charters; *Psychology*—Pillsbury; *Trigonometry and Surveying*—Wells and Robbins; *Astronomy*—Sharpless & Philips; *Latin*—Allen & Greenough, Pearson, Walker's Cæsar, Allen & Greenough's Cicero, Bennett's Virgil; *German*—Gohdes and Buschek, Ger-

man Texts; *English Literature*—Pancoast, English Texts; *Orthography*—Atwood; *Philosophy of Education*—Cubberly; *Sociology*—Ellwood; *Ethics*—Sneath and Hodges.

REGULATIONS

1. Students are considered members of the school until the Principal is duly notified of their withdrawal.

2. The hours regularly assigned to duty to be faithfully devoted to the preparation of the work required.

3. Students are allowed to walk for exercise in the vicinity of the school, but are not permitted to visit the town or otherwise absent themselves without permission. Absence from the building after dusk is not permitted without permission.

4. Permission to be absent from a recitation must always be obtained from the teacher in charge of the class, *before* the absence occurs; and students desiring to be absent from town must get written permission from the Principal or Preceptress.

5. Boarding students who are not present at the beginning of the term must send to the Principal written explanations of their absence.

6. Every student must be present at the daily opening exercises of the school, and at all general exercises of the school, and at the general exercises in the Chapel, unless excused.

7. All objectionable books, papers and cards found in possession of the students will be taken and destroyed.

8. Disorderly conduct in the building is prohibited. Each student will be held accountable for any disturbance or damage in his room.

9. No nails must be driven in the walls or ceilings, or alterations made in the windows, doors, or any appendage of the rooms without permission from the *Steward*.

10. Students are not allowed to visit one another's rooms during the regular hours of study without permission of those in charge of the halls. No change of rooms must take place without permission of the Principal.

11. All students who are tardy, unnecessarily, at meals, will forfeit them, and no one will leave before the rest of the table without good reason, and permission from the person sitting at the head of the table. Any student sick or indisposed, and re-

Boys' Dormitory

quiring attention, must have himself reported at once to the Nurse.

12. It is expected that the ladies and gentlemen of the Institution will treat one another with politeness, but they will not be allowed to be together or to carry on conversation or other communication except in the performance of the school exercises, unless by special permission. Neither sex will be permitted to trespass upon that portion of the building assigned to the other.

13. Students will not visit the dining room at any other time than meal time, nor the domestic department, boiler room or music rooms, without permission.

14. The use of tobacco in any form is strictly prohibited in the building or on the grounds.

15. Students must not enter any saloon, bar-room, billiard- or pool-room. They are forbidden to use as a beverage alcoholic liquors of any kind whatever during their connection with the school.

16. Students will be required to attend public worship each Sabbath morning at such place as their parents or guardians designate.

17. Students are required to take up enough studies to keep them, in the judgment of the Principal, sufficiently employed, but not more than they can study with profit.

18. Students must furnish towels, napkins, and two pairs of blankets (or an equivalent), and have all articles of clothing *distinctly marked*. Each student is permitted to have twelve plain pieces washed each week without extra charge. While great care is taken with all articles sent to the laundry, the school will not be responsible for their loss or damage.

The right is reserved to remove from the school any pupil whose influence is found to be detrimental.

Summer School

June 26 to August 4

1916

State Normal School

WEST CHESTER

Chester County, Pennsylvania

GROUP OF SUMMER SCHOOL STUDENTS, 1915

Sixth: Graduates of accredited second and third class high schools can make their Normal Course easier, shorter, and more certain of completion by working off branches not heretofore studied nor credited to them by reason of their graduation.

Seventh: Teachers who intend to take the State Examinations for Permanent Certificates can here get reviews needed. The reading prescribed for such certificates under the New Code will be given special attention in the pedagogical courses. Students here may postpone these examinations until the close of the Summer School.

Eighth: Teachers who contemplate a college education, since Normal School graduation not only confers a life certificate to teach, but also secures college admission and even advanced standing to the extent of one or two years' work.

Ninth: High or grammar school students who have failed in a part of their work will have an excellent opportunity to make up their deficiencies at the Summer School. Others who desire to take advanced work in their classes can get a start in the subjects that they will take up the ensuing year. Look over the program and see what you need to take. Talk with your principal or teacher about the matter. If all is not entirely clear, or you need additional information, write to the principal of the Summer School.

Teaching Positions

Every summer brings requests to the Normal School for teachers. Heretofore it has been impossible to fill desirable positions by reason of a lack of suitable persons. Hereafter recommendations to such positions will also be made from the Summer School enrollment when there are suitable candidates.

Points of Interest

Valley Forge, Brandywine, Paoli and numerous other points of historic interest are near by. Philadelphia, with its countless places of interest, is easy and cheap of access. Saturdays are reserved this year for the purpose of trips to historic shrines, industrial centres, places of natural beauty, etc. Such trips have been among the most enjoyable features of the entire summer work.

Recreation

The gymnasium and the sixty acres of school grounds will be free. The surrounding country affords opportunity for numberless interesting walks, which are to be made part of the instruction in history, agriculture, geography, nature study, etc.

Location and Accessibility

West Chester has unusually good railroad and trolley facilities. It is connected with Philadelphia by the Pennsylvania Railroad over two lines. At Frazer, connections with the entire system of the Pennsylvania lines is made, and at Lenape with the Philadelphia & Reading Railway. There is half-hour trolley service to Philadelphia for 30 cents, as well as trolley service to Kennett Square, Downingtown, Coatesville and Lancaster.

Advantages of Location

West Chester is a beautiful town of 12,000 people and is pre-eminent for its healthfulness, morality and intelligence. Wide, shady, clean streets and beautiful parks, joined with much open space about the dwellings, assures comfort and the preservation of energy so that school work will be pleasant and profitable. By actual record, our temperatures are always from three to ten degrees lower than Philadelphia's temperature. The water supply is pure and abundant.

Boarding

Rooms and board in pleasant nearby homes will cost \$4 per week when two persons occupy one room, or \$5 per week for single rooms. Upon request a list of such homes will be mailed to inquirers. The entire term, therefore, need not cost more than \$40 to those desiring to keep the expense as low as possible. Excellent hotel accommodations at moderate prices are available for those preferring them.

Expenses

A payment of ten dollars (\$10) will be required from each student. This covers the charge of enrollment, tuition for any two courses, use of library, and admission to all general entertainments, lectures and seminars. Tuition bills are payable in advance. Additional charges will be made for additional courses at the rate of \$2.50 for each additional or partial course, up to four courses, the limit permitted to any student. Laboratory charges covering materials actually used will be made in manual training, chemistry, etc.

Books and Supplies

All books and supplies needed will be procurable at usual prices in the school's book and supply room. Some books may be rented for a small weekly payment.

Further Information

Those who expect to come should notify us early and indicate the courses which they desire to take. This will help us in planning to meet their needs. Correspondence and inquiries are invited.

G. M. PHILIPS, PRINCIPAL,
WEST CHESTER, PA.

II. COURSES OF INSTRUCTION

Practically all of the work of the first three years of the Normal School Course will be offered, and will be given where a sufficient number of students enroll for it. Senior, post-graduate and special work will be provided if called for by more than five students for any one subject. Work done will be credited toward a Normal School diploma. If prospective students do not find such a course as they desire, application to the Principal is all that is necessary to learn whether or not there have been requests for such courses and what are the prospects that they may be given.

Agriculture

PROF. CROMWELL

In view of the increasing importance attached to this subject, it will be given careful attention. The aim will be to prepare students to teach it in the public schools. Besides class-room discussions and recitations there will be experiments in the laboratory, practical observations, grain and stock judging, field studies of plant breeding and plant diseases. We have some of the best lantern slides on agriculture and free use will be made of these.

There will be two courses offered in agriculture. One will be in agronomy and will aim to cover the subject of field crops, garden crops and fruit crops. The second course will be in animal husbandry and will be a practical course in breeding, judging and handling farm stock. The two courses cover the general subject of agriculture. The work will show those who are to teach agriculture, what can be done with this subject in rural and city schools. Suggestions will be given how to manage school gardens.

Botany

PROF. CROMWELL

This course will give a review of the whole subject. The lectures and discussions will be accompanied by experiments and demonstrations showing the work of plants.

Nature Study

PROF. CROMWELL

This course will present the essentials in nature study for the ordinary teacher. A course of study for children in this subject will be presented and exemplified. Our domestic animals and common plants, birds and insects will be included as far as time permits.

Geology

PROF. NEWMAN

Walks and talks out-doors. What we may learn along the roadside, along a stream, in a quarry. Identification of rocks and minerals, will be included. All field work will be supplemented by readings, lectures, lantern slides and other material.

Astronomy

PROF. NEWMAN

A standard textbook will be studied and reference work will be conducted in the library. An effort will be made to become familiar with the summer sky through aid of a star atlas. The student of the Summer School will be invited to join the astronomy class in use of the Normal School telescope weekly. A trip to Swarthmore College will give opportunity to use the Sproul Telescope, the most powerful in the eastern United States.

Geology and astronomy together constitute an elective in the third year of the Normal School course to be substituted for either mathematics or for a language. By additional reading either geology or astronomy may be completed in one summer session.

Physical Geography

PROF. NEWMAN

The most recent methods of presentation and selection of material will be followed. The work will be largely observation with lantern slides and readings from textbooks and other sources. There will be laboratory study of atmospheric work, of surface phenomena near by and of topographical maps.

Physics

PROF. NEWMAN

The Normal School course in physics may be taken in two Summer School courses. Every effort, however, will be made to adapt the work to the needs of the students of the Summer School. Daily recitations and laboratory exercises are required.

Chemistry

PROF. NEWMAN

The elements and their compounds will be studied and the general principles and fundamental laws of the science will be emphasized and illustrated. Special

attention will be given to such practical problems as purification of drinking water, disinfection, photography, etc., as they arise. Visits to the local gas plant and the dustless crayon factory will be made. Daily laboratory work will be required.

The Summer School will give credit for one-half the work required for the completion of the third year in the Normal School course.

A course either in physics or chemistry will be given. The subject for which there is the greater demand will be given.

Literature

MRS. NEWMAN

The work in Literature will include a critical study of representative English authors in the Elizabethan and the Victorian Ages, with a brief general survey of other periods. Suggestions will be given as to methods of studying a classic, and books for various grades in literature will be discussed.

Grammar

MRS. NEWMAN

A general review of English grammar will be taken, essential topics being selected and emphasized. Language and composition exercises will be presented.

Rhetoric

MRS. NEWMAN

The practical side of rhetoric will be considered, and *main matters* in the technical phase of the work will be taught.

United States History and Methods of Teaching History

PROF. BURNHAM

The work for the present third year of the Normal School course in this subject will be offered.

Civil Government

PROF. BURNHAM

The work in this subject includes a careful study of the civil government of the United States and the State of Pennsylvania, based upon Philips' Nation and State.

General History

PROF. BURNHAM

In this subject the ancient history of the first year, the modern history or the English history of the second year will be given as the members of the class may select.

Drawing and Industrial Art

MISS MORRELL

The teaching of drawing will be made very practical, and the aim will be to help those who are required to teach it in graded or rural schools with or without the supervision of a special teacher.

The same careful attention will be given to the course in supplementary hand-work. The course will include basketry, raffia, paper cutting, cardboard construc-

tion, etc. Those who pursue this course will be better equipped to teach the subject and to manage a school.

A second course in industrial work will be offered for the benefit of those who have had the beginnings of such work, or for those who are looking toward supervision in industrial work.

Music

MISS MORELL

Sight singing and theory of vocal music will be course one in this subject.

A class for those who are looking toward supervision and direction of the music work of a system of schools will also be organized if needed.

Elementary Latin

PROF. DICK

With the aid of charts specially devised, this course will give a good foundation in pronunciation and forms and a good knowledge of the fundamental principles of Latin syntax. Methods of teaching will be suggested.

Caesar

PROF. DICK

An opportunity is given to review rapidly the first four books, or to study two books more carefully. Charts in colors have been prepared to illustrate Caesar's Campaigns in Gaul, and others to present difficult points in syntax. As good, idiomatic English is a prime requisite in a correct translation, attention is constantly called to the difference in idiom and word-order of English and Latin.

Work in Cicero and Virgil will be planned, if needed.

German

PROF. DICK

Courses, giving careful drill in pronunciation and grammar, in German, elementary or advanced, will be arranged according to the needs and number of those who enroll.

Mathematics

DR. ANDERSON
MISS MARTIN

An elementary and an advanced course in arithmetic as well as in algebra and a course in plane geometry will be offered, in which the work will be of the same character and grade as that now pursued in the Normal School. In arithmetic much ground will be covered to prepare for examination, and stress will be laid upon methods of teaching the different topics considered.

Classes will be organized in solid geometry, plane and spherical trigonometry, and surveying, if there is a sufficient demand for them.

School Management and School Law

SUPT. JONES

The organization and the operation of a single school comprising eight grades, under one teacher, will be studied in all important phases and details: book study

and recitation will be supplemented by library work from other texts as needed. This course will acquaint the student with the best methods of organizing schools, with special reference to rural school conditions.

The School Law of Pennsylvania, in the phases needed by teachers, will be presented from the text of the law.

Professional Reading

SUPT. JONES

As soon as the class is organized those books from Dr. Schaeffer's lists which the class selects, will be taken up for study with a view to thorough understanding of the ideas and spirit of the authors, so as to convert the thought into material for actual use in the schoolroom and into a basis for advanced study in pedagogy. Two books will be thus covered.

Selection of the required four books on pedagogy may be made from the following: Colegrove's *The Teacher and The School*, Seeley's *School Management*, White's *School Management*, Charters' *Teaching the Common Branches*. Stampfer's *The Teaching of Arithmetic*, Culter and Stone's *The Rural School; Its Methods and Management*, Carney's *Country Life and Country School*, Mace's *Method in History*, Graves's *A Student's History of Education*, Klapper's *Teaching Children to Read*.

Psychology

PROF. FISHER

1. **Elementary Psychology.**—This course is offered for those who wish to begin the study of the fundamental processes of sensation, perception, imagination, memory, etc., and their development of function. It will be accepted as the equivalent of one-half year's work in third year's Psychology. Text-book: Thorndike's *Elements of Psychology*.

Methods of Teaching

PROF. FISHER

In this course will be discussed the aims, purposes, processes of the recitation and the methods of teaching the several branches of the courses of study. Special topics will be thoroughly taught. The preparation of school program lesson plans will be emphasized.

Physiology

PROF. FISHER

With careful study and much reading the course in this subject can be covered during the Summer School. The study of life gained through the other sciences will find its application in the better understanding of the human body and its functions. Modern methods of safeguarding the health of school children will receive much attention.

Examinations at the End of Course of Study

Entrance examinations, now required from all but graduates of accredited High Schools, or pass examinations in any branches not credited, will be arranged free of charge upon request during the term.

III. LECTURES

Among the attractions of the Summer School will be a course of lectures, which will be free to all members of the School. The following lecturers have been engaged, and others will be added: Dr. J. George Becht, Secretary of the State Board of Education, Dr. G. M. Philips, Dr. F. H. Green, Prof. Smith Burnham, Prof. A. D. Cromwell, Dr. A. L. Suhrie.

Dr. Ernest Burnham, of the Department of Rural Schools of Michigan, and a professor in the State Normal School at Kalamazoo, Mich., will address the Summer School daily for a week on rural school problems. His topics will be: I. Establishing Relations. II. Organizing the School. III. Economizing Time and Energy. IV. Some Typical Lessons. V. The Life of the School. Dr. Burnham has been for years a field worker in the rural schools of Michigan and comes to West Chester with plans and methods that have made the rural schools of his State famous.

This Normal School district has as its County Superintendents growing men, —Thomas A. Bock, of Chester, J. Horace Landis, of Montgomery, A. G. C. Smith, of Delaware, and J. H. Hoffman, of Bucks county—upon whom the educational world looks with much favor. Each has outlined a plan of work that will greatly increase the efficiency of his county schools. It is expected that each of them will spend at least a day in the Summer School and will present to the students a phase of his work that will help all to become greater powers for good in the school community where they teach.

IV. EXAMINATIONS FOR PERMANENT AND PROFESSIONAL CERTIFICATES

The Superintendent of Public Instruction has given students of this Summer School permission to take the examinations for permanent State certificates at any examination occurring after the close of the Summer School. The examinations held in the following places will probably be most convenient, viz.: Norristown, Chambersburg, Allentown, Philadelphia, Scranton, Harrisburg, Williamsport, and at all of these places examinations will be held on August 3 and 4. Circulars giving full information can be had by writing to the Superintendent of Public Instruction, Harrisburg, Pa., or can be had at the Summer School.

A special examination for permanent certificates will be held at the Normal School at the close of the session, if there are enough candidates to justify it.

All who are teaching on Provisional Certificates should realize the importance of securing Professional Certificates as soon as possible. Not only because in most cases it means a salary of \$10 more per month, but because those who began teaching after the school code was passed—five years ago—can not teach longer on Provisional Certificates, and must get Professional Certificates or quit teaching. The common school subjects should be thoroughly reviewed before the examination.

At this Summer School special attention will be given to preparation for the Professional Certificate examinations. Teachers planning to take such courses here should tell us which subjects they need and which they prefer.

The County Superintendent of all the counties of the First Normal School District will hold examinations for Professional Certificates, if needed, after the Summer School has closed, and the Superintendents in the State generally will do this.

PROGRAM

TIME	Prof. Dick A. M. Beginning	Prof. Burnham B 8	Miss Martin B 6	Supt. Jones B 12	Prof. Newman A 5	Prof. Cromwell A 8	Mrs. Newman B 9	Prof. Fisher B 5	Dr. Anderson B 4	Miss Morrell C 10
7.45	Beginning Latin (1 year)		Advanced Arithmetic (1 year)	School Management (1 year)		Botany (2 year)	History of Literature (3 year)	Physiology (3 year)	Plane Geometry (2 year)	Advanced Industrial Work (4 year)
8.45	Beginning German (3 year)	U. S. History and Methods (3 year)	Elementary Arithmetic (Entrance)	Professional Reading	Physical Geography (1 year)	Agriculture (4 year)	Rhetoric (2 year)		Advanced Algebra (1 year)	Beginning Industrial Work (1 year)
9.45	General Exercises: Entire School in Study Hall									
10.00	Caesar (2 year)	General History (2 year)			Chemistry (3 year)	Agriculture (4 year)		Methods of Teaching (3 year)		Drawing (1 and 4 year)
11.00		Civil Government (3 year)	Advanced Arithmetic (1 year)		Geology (3 year)	Nature Study (4 year)	English Grammar	Psychology (3 year)	Elementary Algebra (Entrance)	Vocal Music (1 year)

EXPLANATIONS

- (1) The entry in parenthesis under each study tells of which year of the Normal Course that branch is part of the work.
- (2) If possible, changes will be made in this program to meet the needs of students, after opening day.
- (3) Classes will be formed if five or more students register for the subject.
- (4) Classes in additional subjects will be organized if there is sufficient demand.
- (5) The Book-room is open for the sale of books and supplies from 7.30 to 7.45 a. m., and from 1.00 to 1.30 p. m., on school days.
- (6) The Library is open from 7.45 to 12.00 a. m., and from 2.00 to 4.00 p. m., on school days; from 9.00 to 12.00 a. m., on Saturdays.
- (7) The Gymnasium is open from 2.00 to 4.30 p. m., daily. For men on Tuesday, Thursday and Saturday; for women on Monday, Wednesday and Friday.
- (8) Tennis nets, etc., may be secured at the office when wanted, and must be returned to the office.
